HumaCLIA 150

The ideal immunoassay system for testing in central and remote labs

- > Simplified operation with random-access capability
- > Modern, intuitive user interface
- > Economical, customer-focused reagent concept

HumaNex A1c Variant

Your dedicated HbA1c expert – improved diagnosing and monitoring of diabetes patients

- > HPLC technology - the gold standard of HbA1c testing
- > Outstanding analytical performance - Hb-variants detection
- > NGSP and IFCC certified

HumaCount 5DCRP

The 2-in-1 solution – 5-part diff and C-Reactive Protein

- > 5-part diff or CBC-count or CRP mode switch
- > Direct capillary blood process by OptimalCount Technology
- > Up to 32 parameter incl. NRBC, LIC and ALY

HumaStar 300SR

User-friendly random access clinical chemistry system

- > Up to 300 tests per hour
- > Intuitive and powerful multi-language software
- > Water consumption < 3 l/h
